

# Key Points of Difference

## Aluminium Framed & Skinned Door Leaves

All doors can be powder coated or primer coated to be wet painted on site.  
Maximum size is 4000 x 2000mm, bigger by consultation.

### AluLite™

- ▮ The original aluminium skinned door leaf by CS
- ▮ Clashed 4 sides with 40 x 20mm clashing
- ▮ Dimension over skins is 36mm
- ▮ Limited glazing options available
- ▮ Can be made with laminated lead sheet to aluminium for x-ray and sound rated applications
- ▮ Other material finishes possible (max. 2mm thick skin)
- ▮ Suitable mainly for cavity sliding and hinged applications
- ▮ For external or internal use
- ▮ Suitable for warehouses, hospitals, schools etc.

### AluTeC™ - Edge Profile Series

- ▮ Our most popular and versatile aluminium door
- ▮ Vertically clashed 2 edges only
- ▮ Small 7mm return over sheet at clashed edge
- ▮ Suitable for all our door systems
- ▮ Aluminium or stainless steel finish only for sheet
- ▮ Anodised, P/C or mill finish only for clashing
- ▮ Suitable where a timber door just won't do a reliable job!
