

# Key Points of Difference

## CS Cavity Sliders with Timber Jambs

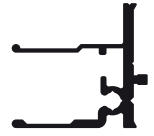

### SpaceMaker™

Our residential slider made to suit a budget. Lighter extrusions keep the cost of the unit down.

Max size: 2100 x 1000mm

50kg Track

SpaceMaker Split jamb

### MidWay™

Our residential mid-range option. For those doors slightly bigger than standard but without any of the detail options.

Max size: 2400 x 1100mm

50kg Track

TimberFormed Split Jamb

### TimberFormed™

The original high quality cavity slider designed to handle all your door requirements.

Max size: 2700 x 4500mm

240kg Track

TimberFormed Split Jamb

Intermediate Stud (used on TimberFormed units when door width exceeds 920mm)

3-Cell Split Jamb (over 2600mm or special details)

## Carriages & Mount Plates

↑ M6 Carriage, mount plate and mount plate with stop (suits doors up to 90kg or up to 1500mm wide).

↑ M8 Carriage, mount plate and mount plate with stop (suits doors 90-240kg or more than 1500mm wide).
